

# Draft Trading in Public Places Bylaw 2024

## Statement of Proposal

### 1. Introduction

Southland District Council is seeking public feedback on the draft Trading in Public Places Bylaw 2024 (the draft bylaw).

This draft bylaw allows Council to regulate and manage trading activities including mobile trading, alfresco dining, signage and retail displays in public places which are owned or controlled by Council.

Council acknowledges that when well-managed, alfresco dining, mobile shops, stalls and trading in public places helps to attract visitors, and adds character and vibrancy to our District.

Conversely, if trading is not sufficiently regulated, it can lead to a number of negative outcomes, such as, posing a safety risk to road users, causing undue noise and litter, and impacting the local area.

The review of the Trading in Public Places bylaw aims to ensure that Council has got the balance right.

This statement of proposal is prepared under sections 83 and 86 of the Local Government Act 2002 (LGA) and contains:

- a copy of the draft Trading in Public Places Bylaw and rationale behind it
- information about the proposed amendments, including Council's determinations under section 155 of the LGA
- any other reasonably practical options
- a description of the consultation and submission process, including the period within which views on the draft bylaw may be provided.

### 2. Proposed changes

Council is currently reviewing the Trading in Public Places bylaw along with the Signs and Objects on Roads and Footpaths bylaw and the Alfresco Dining policy. One of the changes proposed is to consolidate provisions that relate to trading activity on land that Council owns or controls under one 'Trading in Public Places Bylaw'.

The full draft Trading in Public Places Bylaw is included with this proposal as attachment A.

The draft bylaw contains some general conditions that aim to prevent nuisance, health and safety issues arising from trading activity in public places. The draft bylaw also has specific sections that provide provisions to regulate:

- the level and intensity of mobile trading activity in public places
- the use of street dining furniture to keep streets clean, safe and not hindering pedestrian flow
- the placement of retail displays and signage on footpaths and berms under the control of Council.

The draft bylaw also contains general information regarding:

- how to get approval
- information about enforcement

- information about penalties

Council undertook preliminary engagement earlier this year to gather information as to what stakeholders view as the main issues with the existing bylaws and policy. Council considers many of the issues addressed in the existing bylaws and policy remain current and appropriate for the District today.

As a result, the draft bylaw contains many of the current provisions, along with minor updates to ensure consistency with current practice and responsibilities, with other Council documents, and to ensure that the bylaw is relevant for the District today and in the future.

<b>PROPOSED CHANGE</b>	<b>WHAT IS IN PLACE CURRENTLY</b>	<b>REASON FOR THE PROPOSED CHANGE</b>
Consolidation of relevant provisions from the current Trading in Public Places bylaw, the Signs and Objects on Roads and Footpaths bylaw (now lapsed), and the Alfresco Dining Policy into one 'Trading in Public Places Bylaw'	Activities are currently regulated separately under the current Trading in Public Places Bylaw, the Signs and Objects on Roads and Footpaths Bylaw (now lapsed), and the current Alfresco Dining Policy.	To provide greater clarity and increased understanding of how trading activities are regulated in public places.  Ensure the public can find relevant information easily.  Create internal review efficiencies.
Removing the discretion for community boards to choose to waive fees in relation to the alfresco dining trading activity	The current Alfresco Dining Policy gives community boards the discretion to choose where or not annual fees in relation to the activity should be remitted	Allows for a consistent District wide approach to be applied.  Enables administration and compliance costs to be borne by licensee
Removing provisions applicable to signs and objects on roadways	The lapsed Signs and Objects on Roads and Footpaths Bylaw applied regulations to both roads and footpaths	The provisions of the lapsed Signs and Objects on Roads and Footpaths Bylaw that relate to roadways will be considered when the Roding Bylaw is reviewed later this year.
Adding the commercial hire of micromobility devices in public places to the definition section of 'trading activity' that may be regulated by the bylaw	Currently there is no ability to regulate this activity	Proposed to enable Council to regulate the hire and parking of micromobility devices on public land by requiring permission of Council for this activity.
Distance changed from 1.2m to 1.5m continuous, straight line width of footpath to remain clear of signage and retail displays	The lapsed Signs and Objects on Roads and Footpaths states a minimum of both 1.2m and 1.5m width of footpath to remain clear of signs and objects	For clarity and to align with minimum distance to be left clear under the alfresco dining provisions.
Removing conditions no longer imposed (e.g. use of musical chimes and evidence of good character)		Ensuring the bylaw provisions remain relevant and fit for purpose

Removing 'milk vendors' from service delivery vehicle exemptions		Ensuring the bylaw provisions remain relevant and fit for purpose
Addition of proof of current food registration certification to potential application requirements		Ensuring the bylaw provisions remain relevant and fit for purpose
Restructuring the bylaw so the general provisions are at the start, and the more specific conditions for each activity follow		To clearly identify the rules that apply to everyone Clarity, readability
Minor changes to definitions, and to clarify and to improve readability and align with other legislative changes.		Ensuring the bylaw remains relevant and fit for purpose. Clarity, readability.

## 6. Information about the proposal

### Background

Council has the power under the Local Government Act 2002 to make bylaws to protect the public from nuisance, protect, promote and maintain public health and minimise the potential for offensive behaviour in public places.

Council has recently undertaken the review of a number of inter-related bylaws and a policy.

These documents are the:

- Trading in Public Places Bylaw 2013
- Signs and Objects on Roads and Footpaths Bylaw 2016
- Alfresco Dining Policy 2015

The three current documents contain rules regulating, managing and prohibiting activities in public spaces with an aim to protect the public from nuisance and to ensure public health and safety.

The approach taken in reviewing the three current documents has been to develop a consolidated omnibus bylaw that incorporates content from the three current documents, along with any other regulations considered necessary and appropriate, to ensure public places are safe and used in ways that positively contribute to the District's identity and people's enjoyment.

Given substantive change has been made to the form of the draft bylaw, it is proposed that subsequent to the bylaw consultation process, a new Trading in Public Places Bylaw be made; the existing Trading in Public Places Bylaw, Signs and Objects in Roads and Footpaths Bylaw, and Alfresco Dining Policy be revoked unless already lapsed.

As with the formal review, or making, of any bylaw, it is open to Council to consider other amendments that could be included in the bylaw.

During the consultation process, Council may consider community views that seek to:

- make changes to the issues that are regulated in the draft bylaw
- add additional issues that are regulated by the draft bylaw
- make additional changes to the draft bylaw
- not adopt a bylaw.

Before adopting the final bylaw, with any additional amendments, Council will consider whether there has been adequate consultation, and, under section 155 of the LGA, must determine that a bylaw is the most appropriate way of addressing the perceived problems, that the proposed bylaw is in the most appropriate form and that it does not give rise to any implications under the New Zealand Bill of Rights Act 1990. Council has also made these determinations in relation to the draft bylaw.

### **Supporting documentation - Schedule of approved sites and associated application forms**

Council's Schedule of Approved Sites and associated application forms are important operational documents that sit under the current bylaws and policy and provide guidance on specific conditions such as permitted locations, trading hours, proximity, placement and size requirements of dining furniture and signage etc.

As a broader, higher-level instrument, the draft bylaw provides Council with the power to regulate trading activity in public places and enforces against non-compliance. The process for review of any bylaw is prescriptive and lengthy, so the supporting documentation provides Council with more flexibility to review and make changes in line with Local Government Act 2002 consultation requirements and Council's Significance and Engagement Policy.

Council staff are in the early stages of reviewing the Schedule of Approved Sites and associated conditions. Setting out operational requirements and specific conditions to be issued for applicants in relation to trading activities such as location and trading hours will be considered as part of the separate review of the supporting documents.

Any feedback specific to the supporting documents, received via the special consultative process of the draft bylaw review, will be considered as part of this separate review along with any relevant feedback received as part of pre engagement with community and stakeholders.

## 7. Determinations under section 155 of the LGA

Council is empowered to make the bylaw in accordance with the Local Government Act 2002 which requires Council to make the following determinations:

### **The draft bylaw is the most appropriate way of addressing the perceived problems.**

Across New Zealand, bylaws are the most typical method used by territorial authorities to address nuisance and health and safety problems associated with regulating trading activities occurring in public places and Council believes it is appropriate to have the proposed rules and approval process to address these issues in a bylaw.

### **The draft bylaw is the most appropriate form of bylaw**

Council believes that the draft bylaw is the most appropriate form of bylaw. The draft bylaw has been developed so that it is easy to read and to use for both staff and public. Council believes that the bylaw is only creating necessary rules and that it is not overly restrictive or prescriptive. The provisions in the draft bylaw allow Council to take action which nuisance or health and safety issues do arise.

### **The draft bylaw does not give rise to any implications under the New Zealand Bill of Rights Act 1990.**

Council considers that the draft bylaw permits trading activities to occur provided that certain conditions are met to ensure that those activities do not cause a nuisance to other members of the community. Accordingly, Council has resolved that the provisions of the draft bylaw does not unreasonably interfere with any of the rights granted by the New Zealand Bill of Rights Act 1990.

## 8. Options

The following options have been considered regarding how Council could proceed, after it has undertaken the consultation process:

**Option 1** – adopting the draft bylaw as it has been proposed

**Option 2** – adopting an amended bylaw. This may include:

- making changes to the issues that are regulated by the draft bylaw
- adding additional issues that are regulated by the draft bylaw
- making additional changes to the draft bylaw

**Option 3** – status quo – review and re consult on current Trading in Public Places Bylaw, Signs and Objects in Roads and Footpaths Bylaw, Alfresco Dining Policy.

### **Analysis of Options**

#### **Option 1 – adopt the draft bylaw**

Advantages	Disadvantages
<ul style="list-style-type: none"> <li>• easy to read and to use</li> <li>• gives clarity on how commercial activities in public places will be regulated</li> </ul>	<ul style="list-style-type: none"> <li>• people may be more familiar with the current practice of regulating separate activities under separate documents</li> </ul>

<ul style="list-style-type: none"> <li>• helps ensure that trading activities are not undertaken in a manner that causes nuisance and health and safety issues</li> <li>• is not overly prescriptive</li> <li>• allows Council to take action when necessary</li> <li>• reasonably similar to the bylaws adopted by Invercargill City Council and Gore District Council, which makes it easier for people to know what the rules are likely to be.</li> </ul>	<ul style="list-style-type: none"> <li>• a more prescriptive bylaw may better prevent nuisance and health and safety issues</li> <li>• may not be supported by some people in the District.</li> </ul>

### Option 2 – adopt an amended bylaw

Advantages	Disadvantages
<ul style="list-style-type: none"> <li>• an amended bylaw may better reflect community/stakeholder views</li> <li>• an amended bylaw may better prevent nuisance and health and safety issues</li> </ul>	<ul style="list-style-type: none"> <li>• an amended bylaw may not be as consistent and easy to use</li> <li>• an amended bylaw may not be as effective at preventing nuisance and health and safety issues</li> <li>• may not be supported by some people in the District</li> </ul>

### Option 3 – retain the status quo – review and re-consult on current Trading in Public Places Bylaw, Signs and Objects on Roads and Footpath Bylaw, Alfresco Dining Policy.

Advantages	Disadvantages
<ul style="list-style-type: none"> <li>• people may be more familiar with current practice of regulating separate activities under separate documents</li> <li>• continues to ensure that trading activities are not undertaken in a manner that causes nuisance and health and safety issues</li> <li>• continues to allow Council to take action when necessary</li> <li>• would enable Council to further investigate views that were raised in the consultation process</li> </ul>	<ul style="list-style-type: none"> <li>• additional costs associated with staff time and advertising in undertaking review of three separate documents, including the re-establishment of the Signs and Objects on Roads and Footpaths Bylaw.</li> <li>• people may not be willing to provide their feedback a second time</li> <li>• may not be supported by some people in the District</li> </ul>

## 9. Next steps

Following this consultation Council will determine whether or not to adopt the draft Trading in Public Places Bylaw. If the bylaw is adopted, Council will review the bylaw again in 2028.
